"Baedeker is, as is well known, a singularly accurate and useful guide. . . . his information is comprehensive, minute, and carefully compiled."—*Full Mail Gazette*.

"More convenient in form . . . than the red books of Albemarle Street, the red books of Coblenz are handier for the pocket or the knapsack, and are terser and more to the point in their style."—*Spectator*.

"We can cordially recommend Baedeker's Handbook, as at once convenient in size, and, at the same time, comprehensive and accurate in its details."—*Daily Herald*.

"Baedeker's Paris is an excellent book for nine out of every ten visitors to Paris. It tells all they want, and not more than they want. . . . Although it contains much letter-press, it will really go easily into the pocket. The maps are very ingeniously managed."—*Reader*.

"We should be inclined to prefer Baedeker, who judiciously notes briefly the more essential points, but has not room to distract you with too many particulars; and you are not tempted to waste time in reading when you should be looking. . . . The numerous maps and plans of cities with which the work is furnished are the best and most conveniently arranged we have ever seen in a guide-book."—*Scotsman*.

"For all who do not care for elaborate description, doubtful criticism and a profusion of historical reminiscences . . . there are no guide-books like Baedeker's. They are of convenient size, contain everything that the ordinary traveller wants to know, told accurately, sensibly, and succinctly."—*Nation*.

Der Parthenon, herausgegeben

von ADOLF MICHAELIS. Text, Imp. 8vo.; Atlas, Folio. Price 30s.

The Parthenon—this richest and most complete work of ancient Greek Art, as far as regards its architecture and richness of sculpture, has never been treated in an exhaustive manner in any previous publication. The above work contains in its Atlas, for the first time, a comprehensive review of the architectural structure of this Temple, founded on the best accessible sources, being a complete collection of all the Sculptures existing either in the original or in casts, or even in drawings. All this material for a reconstruction of the edifice is supplemented by the Text, which embraces all the inscriptions and ancient documents having relation to it in ancient literature, and a notice of all that has been written in modern times affording material for its complete elucidation.
